RESPONSE TO REQUIREMENT FOR RESTRICTION / AMENDMENT

Sir:

In response to the Office Action mailed on May 31, 2005, which requests that the Applicant restricts the application to one of the four groups identified on page 2 of the Office Action, the Applicant elects claims 3 to 6 of group II. This election of claims is not an admission that the gas sensor must comprise a voltage regulator, as stated by the Examiner. The Applicant will shortly submit a voluntary amendment supplying a complete set of claims for the gas sensor invention.

Consequently, please amend the application now on file as follows:

Amendments to the Claims begins on page 2 of this paper.

Remarks begins on page 3 of this paper.
